

True North: Vision and Definition

True North 2010 Vision: To equip, encourage, resource and listen to our pastors, staff, lay leaders and churches so they can fulfill their highest redemptive potential.

True North is a constant. It does not move no matter what shifts or changes happen on earth. Shifts and changes must occur in life and ministry for us to grow and be effective. And today's new realities have brought disequilibrium into life and ministry making change critical. But there must be constants which you can hold onto to keep your bearings. We're praying that True North will be one of those constants you can depend on in 2010 as you work hard to close the gap in your communities in 2010. God bless you! We love you and are rooting, cheering and praying for your effective success.
